SHILOH CHRISTIAN SCHOOL~ Academic Excellence on a Christian Foundation

CHOOSING GOD'S BEST

Life is about choices. Many times we focus on big choices, but life experience and wisdom show that it is the little choices that ultimately lead to the opportunities of life's big choices. In a culture teeming with seduction and enticement and instant gratification how do we make the best choices? Many choices look good and may lead to good things, however we may

want to pause and ask— Is this the best choice? Making the best choices requires intentionality. Taking time to examine the choices to determine what is the best one, this might include research and seeking wise council as well. Many will choose the path that others follow with least resistance. As followers of Christ His words teach us that the road to life is narrow and few will

choose it—it may be a lonely path at times. As parents and grandparents we want the very best for our children and grandchildren. Just as our heavenly Father wants the very best for us. Make every effort to choose God's best and not allow the things of this world to dictate what it thinks is best.

Calendar

- August 11 Activities Meeting
- August 22 First Day of School
- August 23 First Home Football Game
- Sept 13 Homecoming
- Nov 22 Skyhawkktion

DWYER FIELD HOSTS STATE TOURNAMENT

Dwyer Field at Shiloh Christian School is hosting its first state tournament in style. The Class A State American Legion baseball tournament opened this last week with four first-round games. After the last game of the night, a fireworks show and free refreshments was served. "It's nice to be able to host

a state tournament. It's a big deal for us," said Capitals and Shiloh Christian coach Aric Lee. "It's the first time we've hosted a state tournament and we want to make it enjoyable for players and fans and everybody involved. The Bismarck Capitals include several Shiloh students and other local players.

Being Good Stewards

Shiloh Christian School has been blessed with beautiful facilities. Our desire is to maintain and improve our programs—this is made possible through tuition and the generosity of our donors. Our Fine Arts program received an upgraded microphone frequency system and new microphones used during our musical production of the *Music Man*. This spring saw multiple opportunities to offer our facilities use to our community. We hosted local and regional baseball games and track meets. We consider this an opportunity to share

the gospel to everyone that enters our facilities. Through our community partners program we are continuing to maintain and improve our campus. This summer Shiloh has completed the resurfacing of our gym floor. We added a new pitcher's mound, signs and other facility improvements. The PTO has provided the funding for a playground equipment. The faculty and staff are working on curriculum and their classrooms in anticipation of the 2019-20 school year!

Tree Dedication

During the construction phase of the commons some trees had to be removed. We will be re-dedicating these at Homecoming this year, September 13. In memory of Mark Persson and Kirk Eckelberry.

SHILOH NEEDS LIST:

- New Kiln for Art Program \$2,000
- Sanford Power Lifting 2019-20 School Year
- ~~Fall \$5,000~~
